

Welcome to your new dental home!

This office has been designed for your total comfort and peace of mind. Each team member will make every effort to see that your visit is a pleasant one. From the moment you arrive and relax in our comfortable reception area, you will realize that this is a very special place where the highest quality standards are evident in every detail. We don't believe in stacking up appointments and keeping our patients waiting. It is this level of consideration and attention to detail that sets Dr. Sheridan apart.

Even though most treatment only requires one or two visits, we have made every effort to make sure your appointments are as comfortable as possible. Every detail of your visit has been carefully anticipated. Headphones for music or T.V....shaded eyewear....all set in a relaxing tone. Warm pillows and blankets are also available to make things cozy! We definitely pamper our guests.

This letter is to help you understand what your "First Visit Experience" will be like. We will be taking a full series of digital radiographs if they need to be updated, and records of your mouth. Dr. Sheridan will check for decay, perform an oral cancer screening, check the health of your gums and take photos of your teeth. We will be happy to answer any questions you may have about your smile and over-all dental health. Dr. Sheridan may wish to see you back for a consultation to discuss any possible treatment before we begin.

Please take a moment to complete the enclosed health history questionnaires and return them at your first appointment. We look forward to making all of your dental visits with us "exceptional."

Warmest Regards,
Dr. Sheridan and Team
